Penalty Runs to Batting Side		5	Entered in Penalty Extras
Signal Revoked			Ignore previous signal - but watch for new one

- The scorer's job is one that requires considerable concentration and commitment. It is one of the most essential jobs of cricket and possible one of the most complicated. Many of us begin scoring by attending a game to watch our children, friends, or mates and all of a sudden you end up with the score book in the hand and you are recording the days events. Easy they say until you are asked to record balls faced, what is the required run rate, wickets are falling, umpires signal wides and batsman are running, no balls and leg byes signalled together and then you realise this world is not as simple as it seems and begin to panic. Welcome to the world of cricket scoring.
- Hopefully this guide will help you along the way answering many of the common questions that will be asked over the season and elevate the uncertainty that comes with this profession. Yes there is a skill in scoring and as you grow with the skill you will become a professional.

- **Scoring Hints**

- Arrive at the game in plenty of time to set up a table and chairs, unpack and get settled. Don't stress yourself by arriving with too little time to spare (arrive at least 15 mins before the game is due to start).
- Ensure you have a good supply of pencils/ a rubber / a copy of a rule book.
- Ask each captain/coach for a team list. Write out both teams on a page side by side (in batting order if possible) and leave list in clear view for both yourself and your opposition scorer.
- Players will find it useful as well.
- Fill in heading on match sheet before the game starts. Fill in ALL sections.
- Develop a system of scoring and stick to it. Start from the top of the page and work your way down with each ball.
- Ensure both scorers sit together.

- **Umpire etiquette**

- Tell the umpires where you will be sitting. If you have to move during the game, ensure the umpires see you move so they know where you are. Be aware of what is behind you. Should you be wearing dark clothing and have a dark background, the umpires could struggle to see you acknowledge their signals.
- Be ready to signal when umpires call start of play. Umpires are in control of the game - whatever they signal is what is recorded in the book. With leg byes/byes the umpires ruling is final. It doesn't matter if scorers think an umpire forgot to call, if the umpires don't signal leg byes or byes then runs are recorded to the batsman.
- Ask umpires if they want you to signal if you see a ball is either a 4 or 6. Again their word is law. If they don't want you to signal then don't do so.
-

- **Remember** to always communicate with your fellow scorer. THIS IS ESSENTIAL.
- Ideally scorers from each team should sit side by side. This way, they can compare scores, change of bowlers, incoming batsmen, names of fieldsmen who took catches etc, and assist each other when mistakes are made. Don't ever think a mistake will not be made even test scorers get it wrong.
- This is not about who is the better of the two scorers. It is about accuracy. Constant communication is essential between scorers.
- Concentrate on the game - you will have plenty of distractions and it helps to be able to shut out the noise and just watch the game and record what is happening.
- When play is interrupted for rain/bad light etc., make a note of the time, who bowled last over, from which end and who was on strike.
  
- **End of day –**
- Make note of who bowled last over and from which end
- Make note of who was on strike

## **Completion of innings -**

- Show not out batsman, their scores and balls faced
- Add sundries and total the batting
- Complete bowling, add leg byes and byes and total
- Ensure all 11 batsmen's names are entered on scoring sheet whether they batted or not. This aids the selectors and coaches during the season.
- Ensure book totals agree. Make sure your other scorer agrees with you.
- In notes: show result of match, if this is not indicated elsewhere

- Every ball bowled ***MUST*** be recorded. If no runs or sundries occur, then record a dot against the batsman and also in the bowler's column.
- When runs occur, they have to be recorded against the batsman, added to the total score and recorded in the bowler's column, comparing runs and total score with your fellow scorer.
- When sundries occur, they have to be recorded in the appropriate sundries column,, added to the total score and shown in the bowler's column (see below) and don't forget to compare with your fellow scorer. Work from the top of the page, filling in the relevant sections as you go down the page.
- At the end of each over, total runs in bowler's column and compare total score with your fellow scorer. Every few overs, also compare batsmen's individual scores.

- **A GUIDE TO SCORING CRICKET**

- **General Points:**

- Recommended requirements: 3 or 4 pencils, pencil sharpener, eraser.
- Begin scoring on a new double page for each match.
- Prior to the start of each match, complete all details at the top of the page.
- Work from the bottom of the page to the top when scoring as the bowling analysis is accepted as being correct.
- Work together with the scorer from the opposition team - compare scores at the end of each over.
- Record only what the Umpire signals. If in doubt re an Umpire's signal, ask for it to be repeated.
- **At the start of every over: Record the number of that over in the bowling analysis against the bowler's name. Record in the bowling analysis if the bowler is restricted.**

- **1. Batsman**

Record the time in of batsman.

- **2. Fair ball bowled, no runs scored**      Record as a dot in the bowling analysis.
- **3. Fair ball bowled runs scored 3 entries to be made**      a. Record the runs in the bowling analysis.      b. Advance the progressive score.      c. Record the runs next to the striker's name.

- **4. Sundries (3 entries to be made)**

- **No Balls**

Ball not played with the bat

- a. Record the no ball's in the bowling analysis. b. Advance the progressive score. c. Record the no ball's in the sundries analysis.

Ball played with the bat

- (i) Batsmen don't run

- a. Record the no ball's in the bowling analysis. b. Advance the progressive score. c. Record the no balls in the sundries analysis.

- (ii) Batsmen run

- a. Record the no ball's in the bowling analysis. b. Advance the progressive score. c. Record the no balls next to the striker's name.

- Note If the batsman strikes the ball and runs, no entry is made in the "sundries box". If the batsman is given out on a no ball, the run for the no ball is still credited to the team.

- **Wides**
- The ball is not a wide if the batsman hits it!
- a. Record the wides in the bowling analysis. b. Advance the progressive score. c. Record the wides in the sundries analysis.
- **Leg Byes**
- There is no penalty recorded against the bowler.
- a. Record the leg bye's in the bowling analysis. b. Advance the progressive score. c. Record the leg bye's in the sundries analysis.
- **Byes**
- There is no penalty recorded against the bowler.
- a. Record the byes in the bowling analysis. b. Advance the progressive score. c. Record the bye's in the sundries analysis.

- **5. Fall of Wicket**
- a. Record "W" in the bowling analysis.(But not for a run out - see below)
- b. Record the "time out" of the outgoing batsman.
- c. Record "How Out".
- d. Batsman caught or run out - record the name of the fielder in the relevant column.
- e. Record the name of the Bowler in the relevant column. (But not for a run out - see below)
- f. Record ">" after the last run of the dismissed batsman, total his/her runs and record in the relevant column.
- g. Record the name of the dismissed batsman and remaining batsman with the latter's not out score in the "Fall of Wickets" analysis.
- h. Check all totals with the other Scorer.
- **6. Batsman Run Out**
- When a batsman is run out, the completed runs are credited to the striker. Uncompleted runs do not count even though the batsmen may have crossed.
- The wicket is not credited to the bowler.
- a. Do not record "W" in the bowling analysis.
- b. Record the run out as a dot in the bowling analysis if there has been no completed runs.
- c. If the batsmen have completed runs, record that number in the bowling analysis.
- d. Record "How Out"
- e. Record the name of the fielder in the relevant column f. Repeat as for 5(f),(g),(h).

- **7. End of Over**
- Runs off the bat, no balls and wides are all recorded against the bowler in the cumulative bowling analysis.
- a. Complete the cumulative bowling analysis for the bowler.
- b. Check that the totals for the
  - (i) bowling analysis + byes + leg byes,
  - (ii) the progressive score and
  - (iii) the total runs for the batsmen + sundries all agree.
- c. Check all totals with the other Scorer.
-

- **8. When an innings is completed**
- a. Total all the sundries and transfer the cumulative total to the relevant box.
- b. Total the runs scored by the batsmen and add the sundries for the "TOTAL".
- c. Complete all bowling summaries for each bowler and total
- d. The totals for (a), (b) and (c) should all agree.
- e. Ensure that the Umpires sign the score book, along with the Scorer.
- **9. End of Day's Play.**
- When an innings is still to be completed
- a. Record the name of the last bowler of the day & the end from which he bowled.
- b. Record the batsman to face the following week and at which end.
- c. Record the score at the end of the day.
- d. Ensure that the Umpires each initial the above in the score book.

- **BYES**
- Byes are recorded as B. This is shown as 1 in the Bye column in sundries, one to the total score and shown as B1 in the bowler's column but *NOT* added to the bowler's figures. (See example below). Two, three and four byes are shown as B2, B3 and B4 respectively.
- **LEG BYES**
- Leg Byes are shown as L. This is shown as 1 in the Leg Bye column in sundries, one to the total score and shown as L1 in the bowler's column but *NOT* added to the bowler's figures. (See example below). Two, three and four leg byes are shown as L2, L3 and L4 respectively.

	BYES B	LEG BYES L
counted as runs to batsman	NO	NO
counted as ball faced b batsman	YES	YES
counted on total score	YES	YES
counted as runs against the bowler	NO	NO
counted as legal ball bowled	YES	YES

- **Short Run** Declared by umpire bending the arm upwards to touch the nearest shoulder with the tips of the fingers. One less run is put to the score (e.g.. if the batsmen run 2 and short run is signaled, the batsman who struck the ball has only **1 run** recorded against his name.)

## **NO BALLS -**

When a no ball is bowled and no other runs are scored, enter a 0 in the bowling column, enter 1 in the no ball column under sundries and add 1 run to the progressive run total. (Don't forget at the end of the over that the 0 represents one run against the bowler and has to be added to his progressive score.

### **When runs are scored from a no ball,**

If the umpire does not signal a leg bye or bye off a no ball then the runs made are entered against the batsman, 1 for the no ball is entered into the sundries and runs with a circle around them is added to the bowling analysis. e.g. If 4 runs have been struck, show 4 against the batsman, 1 in the no ball column, add 5 to the total score (4 runs plus penalty 1) and ④ against the bowler (noting that the circle meaning that 5 runs are added to the bowler's tally). The reason to show only 4 in a circle is so if there is a dispute in the total runs scored, it is easier to find all the 1's, 2's, 3's, 4's and 6's on a score sheet than trying to remember that a 5 in the bowlers column is really a 4 plus 1 penalty run.

When a no ball is called by the umpire who then proceeds to call leg-bye (to indicate to the scorer that the batsman did not touch the ball) all runs go to **no balls**. For example, if the batsmen run 2, then 3 runs are put in the no ball column. It would be shown in the bowler's column as a ③ and 3 runs are added to the bowler's progressive score, remembering again that the circle denotes 1 run penalty as per above.

The byes and leg byes are only signaled to show that they were not to go the batsman (Law 24.13).

Generally the **FIRST call** the umpire makes is the one shown in the scorebook. If a wide and no ball are called for the one ball, then it is recorded as no ball because in most instances (regardless of the order the umpire calls the wide and no ball), it is the no ball error that would have occurred first.

***An over which contains a no ball cannot be a maiden over.***

## **WIDES**

A wide is shown as **+** in the bowling column (meaning one run is added to the bowler's figures, one run is recorded in the Sundries column against **Wides** and one run is added to the total). For more than one wide (example Umpire signals byes) it is to be recorded as either **+**, **+** **+** depending on the number of runs batsmen take. Don't forget that if the batsmen run 2 then **three** runs are recorded (2 byes plus penalty one run for the wide) in sundries column as **wides**, 3 added to total score and W2 (3 runs) credited against bowler.

*An over which contains a wide cannot be a maiden over,*

	WIDES W	NO BALLS N
counted as runs to batsman	NO	NO
counted as ball faced b batsman	NO	YES
counted on total score	YES	YES
counted as runs against the bowler	YES	YES
counted as legal ball bowled	NO	NO

## **CATCHES**

Catches should always be shown with the name of the person who took the catch. This is most important for trophies at the end of the season.

If the name of the catcher is unknown, scorer's should always check with the captain of that team at the first break.

If the catch has been taken by a substitute fielder, then his name should be recorded as Ct. J. Bloggs (sub).

When a wicketkeeper takes a catch, by putting a small w-k above his name denotes him as the wicketkeeper. This is important for trophies at the end of the season.

***Law 32: If a batsman is caught, no run is scored under any circumstances***

- ***RUN OUTS***

- When a player is run out going for his first run, no runs are recorded and he is shown as out RUN OUT. The wicket is ***NOT*** credited to the bowler but if no runs are recorded you could show a red **R** in the bowler's analysis to denote when it happened.
- When a player is run out going for his second or third run, only the ***completed*** run/s are credited to the batsman, added to the total score and shown against the bowler. Therefore if a player is run out going for his ***third run***, only the runs he has ***completed*** (in this case 2 runs have been completed) are shown against him, 2 runs added to the total score and 2 runs recorded against the bowler. You could show the R above the runs scored to denote when the run out occurred in the bowler's analysis.

- ***DEAD BALL***

- When a dead ball is called by the umpire and the batsmen have run, no runs are to be recorded and the batsmen will return to their respective ends. The ball is recorded as being faced by the batsman. If, however, the bowler dropped the ball before delivery and the umpire signals dead ball, nothing is recorded.

- ***FALL OF WICKETS*** are shown as **W** in the bowler's analysis.

- When a wicket falls, complete time batsman was out, how batsman was out, name of bowler and how many runs batsman made. Score at fall of wicket, name of batsman out, name of batsman not out plus his score in brackets.

- ***END OF BOWLING SPELL***

- When a bowler is taken off, a thick vertical line beside the over he last completed will indicate the end of his spell.

- ***MAIDEN OVERS***

- When a maiden over is bowled, show a large **M** for that over - this makes it easier to add up number of maidens bowled.

- ***PROTECTIVE HELMETS***

- Law 41.3

- If the helmet belonging to the fielding side is on the ground within the field of play and the ball, while in play, strikes it, the ball shall become dead. 5 penalty runs shall then be awarded to the batting side. Law 18.11 (b) then goes on to say that "When the ball becomes dead for any reason other than the fall of a wicket, or is called dead by an umpire, unless there is specific provision otherwise in the Laws, the batting side shall be credited with

- (i) all runs completed by the batsmen before the incident or call and

- (ii) the run in progress if the batsmen have crossed at the instant of the incident

- or call and

- (iii) any penalties that are applicable.

- Again, they are scored as 5 penalty runs but the batsmen are awarded the runs they have completed (or leg byes or bye runs completed) prior to the ball hitting the helmet.

- ***PENALTY RUNS - Law 42.17***
- **Five penalty runs awarded to the batting side.**
- The Law states: "The umpire will signal by repeated tapping of one shoulder with the opposite hand." (Remember - patting means batting). "Penalty runs are shown as penalty extras and shall be in addition to any other penalties. They shall not be regarded as runs scored from either the immediately preceding delivery or the following delivery and shall be in addition to any runs from those deliveries. The batsmen shall not change ends solely by reason of the 5 run penalty."
- 
- Explanation: The runs shall immediately be added to the total score of the batting side and should be shown as P1 in the bowler's analysis (if it is the first occurrence of penalty runs). This is **NOT** added to the bowler's total but is only to show when it occurred. Make a note in the Notes/Comments column of what the penalty is for. P2 would mean the second instance of a penalty. Check with the umpire at the first break as to why the penalty was awarded.

- **Five penalty runs awarded to the bowling side.**
- The Law states: "The umpire will signal by placing one hand on the opposite shoulder. When 5 runs are awarded to the fielding side, the runs shall be added as penalty extras to that side's total of runs in its most recently completed innings. If the fielding side has not completed an innings, the 5 penalty extras shall be added to its next innings."
- 
- Example 1: Team A have batted and are all out 250. Team B are batting and are 2/100 when the 5 penalty runs are awarded to the bowling side (Team A). You then have to increase extras for Team A by 5 penalty runs and the total for Team A is now 255.
- 
- Example 2: Team A is batting first day of a 2 day match. 5 penalty runs are awarded to Team B who are fielding. Because Team B has not yet batted, you will have to open a new page for them, award them 5 penalty runs and their score is 0/5 before they even take the field.

## BOWLING ANALYSIS

<b>No Ball</b>	<b>O</b>	however, if the batsmen run, then the runs are circled and credited to the batsman's runs. The penalty one run for no ball is added to total score and also against the bowler.
<b>Wide</b>	<b>+</b>	if more than one wide is run, add runs plus one penalty run to total score and credit total runs against the bowler.
<b>Bye</b>	<b>B</b>	One bye is shown as B1, two byes are shown as B2 etc.. Runs are recorded in sundries column, added to total score and shown as B1 or B2 etc.. in bowlers but <b>NOT</b> included in bowler's figures.
<b>Leg Bye</b>	<b>L</b>	One leg bye is shown as L1, two leg byes are shown as L2 etc.. Runs are recorded in sundries column, added to total score and shown as L1 or L2 etc.. in bowlers but <b>NOT</b> included in bowler's figures.
<b>Fall of Wicket</b>	<b>W</b>	Shown in bowler's analysis (but not if bowler is not credited with the wicket as Run Out).
<b>Run Out</b>	<b>R</b>	Can only be recorded as R when runs have <b>NOT</b> been made
<b>Maiden Over</b>	<b>M</b>	Shown where no runs are recorded in bowler's analysis.

1	2	3	4	5	6	7	8	Total
1..	+ .. 1	. B² .	...	04 3	...	4 4 3	W ..	
4..	...	...	L¹ W 1	...	. ⑥ ..	W . 1	...	
0-5	0-8	M	1-9	1-17	1-24	2-36	WM	3-36

Over 1	5 runs = 0/5
Over 2	Wide + 1 penalty run, one run = 0/8
Over 3	Maiden Over (byes are not recorded against bowler) = M
Over 4	1 leg bye, wicket, one run = 1/9
Over 5	No ball (1 penalty run), 7 runs = 1/17
Over 6	Run out, 6 runs off no ball (include 1 penalty run) = 1/24
Over 7	12 runs, wicket = 2/36
Over 8	Wicket maiden = 3/36

- **COMPLETION OF INNINGS**

- When an innings is declared closed and the entire team has not batted, still fill in the names of all the batsmen to who would have batted. The reason for this is that at the end of the season, the selectors will want to know who has played during the year and it is difficult to remember who was selected some months previous.
- Total your book by adding batsmen's runs to total sundries. Extend the bowling analysis for each bowler (total overs, maidens, wickets, runs). Add total bowling runs to leg byes and byes to arrive at the total score.
- Whenever play is interrupted due to rain or bad light, make a note of time lost for recalculation of overs
- **SIGNALS**
- **Law 4.3 - The scorers shall accept all instructions and signals given to them by the umpires. The law states that scorers shall immediately acknowledge *each* separate signal.**
- It is imperative that you become familiar with umpires signals
- These signals should be acknowledged *promptly* by the scorers by waving an arm or hat above your head.
- **Good luck with your scoring and remember to compare continually with your fellow scorer.**
- **That way, you will be able to quickly pick up and correct any errors.**

# A SHORT GUIDE TO SCORING

Cricket matches need scorers to record runs scored, wickets taken and **overs** bowled.

The purpose of this Guide is to give guidance to those who are new to scoring and players who score only part of an innings.

## THE BATTING SECTION OF THE SCORING RECORD

- You should have received a team list, hopefully with the batting order identified.
- Record the name of the batsman in pencil or as the innings progresses - captains often change the batting order!
- Indicate the captain with an asterisk (\*) and the wicket keeper with a dagger symbol (†) or WK.
- When a batsman is out, draw diagonal lines // in the 'Runs Scored' section after all entries for that batsman to show that the innings is completed.
- Record the method of dismissal in the 'how out' column.
- Write the bowler's name in the 'bowler' column only if the bowler gets credit for the dismissal.
- When a batsman's innings is completed record his total score.

## CUMULATIVE SCORE

- Use one stroke to cross off each incident of runs scored.
- When more than one run is scored and the total is taken onto the next row of the **overs** box this should be indicated as shown below.

Cumulative Run Tally									
	1	2	3	4	5	6	7	8	9
10	11	12	13	14	15	16	17	18	19

## END OF OVER SCORE

- At the end of each over enter the total score, number of wickets fallen and bowler number. THE

## BOWLING SECTION OF THE SCORING RECORD

### The over

- Always record the balls in the over in the same sequence in the **overs** box.
- An over containing Wides or No balls, show balls 7 & 8 as highlighted.

1	2	3
7	8	
4	5	6

1	7	4
2	8	5
3		6

- All balls bowled must be entered.
- If the umpire gives a 7 ball over record a 7 ball over.
- If there are only 5 deliveries in the over that is all you should record.
- A Maiden over is a complete over by a single bowler in which there is no score against that bowler. The dots should be joined together to form an "M".
- A Maiden over cannot contain a Wide ball or a No ball.
- An accidental 5 or 7 ball over is a completed over when counting up the number of **overs** bowled. As a completed over, it can be a Maiden over.
- A part over for any other reason can never be a Maiden over.
- If a wicket falls that is credited to the bowler enter a "w" for that delivery.
- If a wicket credited to the bowler falls in a Maiden over it becomes a 'wicket maiden'. Join the dots and "w" together to form a "W".
- Numerals are used only for runs made when the ball has been struck by the bat.

## ⚡ E 8 AND LEG BYE 8

- Can be entered as a dot but it is better to use a symbol.

Eyes  
Leg byes

B  
L

or Triangle, point upwards  
or Triangle, point down

Runs made as byes or leg byes are recorded in the appropriate line off fielding extras.

## WIDE 8 AND NO BALL 8

- Under MCC Laws of Cricket a one run penalty is awarded for a No ball or a Wide in addition to any other runs made.
- All Wide balls and No balls count against the bowler in the bowling analysis.
- An over containing a Wide ball or a No ball cannot be a maiden over.
- A Wide or a No ball is not a fair delivery and does not count as a ball in the over.
- If a wicket falls when a Wide ball or No ball has been bowled and there are no other runs, record the run penalty before entering the score at the fall of the wicket.

## SUMMARISE THE BOWLING

- Complete the total number of **overs**, maidens, runs and wickets for each bowler at the end of the innings.
- If an over is incomplete each fair delivery in the part over is expressed as 0.1 ball.
- Calculate and record the number of no ball and wide deliveries, the total number of balls bowled and the average for each bowler.
- Total these figures to provide a summary of balls, **overs**, maidens, runs and wickets for the entire innings.

## RECORDING THE SCORE FROM A NO BALL DELIVERY

BALL NOT HIT BY STRIKER	SCORED AS	RECORDED AS
Bats men do not run	1 No Ball EXTRA	○
Bats men run 1, 2 or 3	2, 3 or 4 No Ball EXTRAS	⊙ ⊙⊙ ⊙⊙⊙
Bats men run 4 or ball crosses the boundary	5 No Ball EXTRAS	⊙⊙⊙⊙
BALL HIT BY STRIKER	SCORED AS	RECORDED AS
Bats men do not run	1 No Ball EXTRA	○
Bats men run 1, 2 or 3	1, 2 or 3 to STRIKER & 1 No Ball EXTRA	① ② ③
Boundary 4 or 6 <del>&amp; (SQUARE)</del>	4 or 6 to STRIKER & 1 No ball EXTRA	④ ⑥

## RECORDING THE SCORE FROM A WIDE DELIVERY (A WIDE BALL CANNOT BE HIT)

	SCORED AS	RECORDED AS
Bats men do not run	1 Wide EXTRA	+
Bats men run 1, 2 or 3	2, 3 or 4 Wide EXTRAS	+ + +
Boundary <del>&amp; (SQUARE)</del>	5 Wide EXTRAS	+
Bats men out Stumped or Hit Wicket (wicket credited to bowler)	1 Wide Extra	+
